

ABOUT US

Streamline Inspection Ltd. specializes in the inspection of above ground storage tanks, storage tank volumetric strapping and calibration, pressure vessel inspections and piping inspections.

Our flexible mobilization pricing allows us to have competitively priced inspections throughout Canada and worldwide.

Streamline Inspection's safety program is COR certified and we are very proud of our zero lost time incident safety record.

We have experienced API inspectors on site for every inspection job. We use state of the art equipment to provide you with a safe, reliable and accurate inspection with the fastest possible report turnaround time.

Streamline Inspection provides high definition surveys using state of the art laser scanning systems. We offer laser scanning services to many different companies and industries nationwide.
